Primary 3 · Mathematics

Mathematics · Set 3 — Answer Key

50 marks · 1 h 30 min · Exam mock

For parents. Give this to the pupil only after the paper is finished. Written answers: accept any answer with the same meaning, in a complete sentence with correct tense.

Section A: Multiple-Choice Questions (10 marks)

No.	Answer	Marks
1	(2) 5 129	1
2	(4) 63	1
3	(1) 9	1
4	(3) 4/6	1
5	(2) 90°	1
6	(1) Line pair 1	1
7	(4) $1.35	1
8	(3) 17:15	1
9	(2) m²	1
10	(4) 4	1

Section B: Short Answer (27 marks)

No.	Answer	Marks
11	3517 | Explain: 6 003 = 5 thousands, 9 hundreds, 9 tens, 13 ones, so 6 003 − 2 486 = 3 517.	2
12	12.65 $ | Explain: $20.00 = 19 dollars and 100 cents, so $20.00 − $7.35 = $12.65.	2
13	35 min | Explain: 07:35 → 08:00 is 25 min, 08:00 → 08:10 is 10 min, so 35 min.	2
14	40 min | Explain: 13:50 → 14:00 is 10 min, 14:00 → 14:30 is 30 min, so 40 min.	2
15	09:25 | Explain: 6:35 → 9:35 is 3 h, but the flight is 2 h 50 min, which is 10 min less than 3 h, so 9:35 − 10 min = 09:25.	2

16	63 muffins	2
17	9 sweets	2
18	3.80 $	2
19	2050 m	1
20	5/8	1
21	42 cm	2
22	60 cm²	2
23	4	1
24	7	2
25	1150 g	2

Section C: Long Answer (13 marks)

No.	Answer	Marks
26	Perimeter = 2 × (30 + 18) = 96 m. Fencing needed = 96 − 3 = 93 m (leaving a gap for the gate). Cost = 93 × $9 = $837. — Marking guide: M1 for the perimeter 2 × (30 + 18) = 96, M1 for 96 − 3 = 93 m, M1 for 93 × 9, A1 for the final answer $837 | Explain: The gate doesn't need fencing, so subtract its width from the perimeter before multiplying by the cost per metre.	4
27	Cost = 4 × $14 = $56. Change = $60 − $56 = $4. — Marking guide: M1 for 4 × $14 = $56, M1 for $60 − $56, A1 for the final answer $4 | Explain: Work out the total cost first, then subtract it from the total amount paid.	3
28a	Perimeter = 2 × (20 + 13) = 2 × 33 = 66 m. — Marking guide: M1 for 20 + 13 = 33, A1 for the perimeter 2 × 33 = 66 m (correct unit) | Explain: Perimeter is the total length around all four sides, in m: 2 × (length + width).	2
28b	Area = 20 × 13 = 260 m². — Marking guide: M1 for 20 × 13, A1 for the area 260 m² (correct unit) | Explain: Area is length × width, in m² — not the same unit as perimeter.	2

29	11:15 a.m. → 12:00 noon is 45 min. 12:00 noon → 1:40 p.m. is 1 h 40 min. Total = 45 min + 1 h 40 min = 2 h 25 min. — Marking guide: M1 for counting on to noon (45 min) and the remaining time to 1:40 p.m. (1 h 40 min), A1 for the final answer 2 h 25 min | Explain: Count on to the next o'clock (or noon) first, then add the remaining hours and minutes.	2
