Primary 3 · Mathematics

Mathematics · Set 4 — Answer Key

50 marks · 1 h 30 min

For parents. Give this to the pupil only after the paper is finished. Written answers: accept any answer with the same meaning, in a complete sentence with correct tense.

Section A: Multiple-Choice Questions (10 marks)

No.	Answer	Marks
1	(4) 6 842	1
2	(2) 42	1
3	(3) 8	1
4	(2) 3/6	1
5	(2) Angle 2	1
6	(1) $0.95	1
7	(2) 16:10	1
8	(4) m²	1
9	(4) Line pair 4	1
10	(1) Apple	1

Section B: Short Answer (27 marks)

No.	Answer	Marks
11	3453 | Explain: 7 002 = 6 thousands, 9 hundreds, 9 tens, 12 ones, so 7 002 − 3 549 = 3 453.	2
12	8.20 $ | Explain: $15.00 = 14 dollars and 100 cents, so $15.00 − $6.80 = $8.20.	2
13	35 min | Explain: 09:40 → 10:00 is 20 min, 10:00 → 10:15 is 15 min, so 35 min.	2
14	40 min | Explain: 13:50 → 14:00 is 10 min, 14:00 → 14:30 is 30 min, so 40 min.	2
15	08:25 | Explain: 6:50 → 7:50 is 1 h, then 7:50 → 8:25 is 35 min more, so 08:25.	2

16	56 apples	2
17	8 stickers	2
18	2.60 $	2
19	3200 m	1
20	3/5	1
21	50 cm	2
22	78 cm²	2
23	4	1
24	9	2
25	2300 g	2

Section C: Long Answer (13 marks)

No.	Answer	Marks
26	Cost = 5 × $3.50 = $17.50. Change = $20.00 − $17.50 = $2.50. — Marking guide: M1 for 5 × $3.50 = $17.50, M1 for $20.00 − $17.50, A1 for the final answer $2.50 | Hint: Work out the total cost first, then subtract it from $20. | Explain: Find the total cost of 5 plates first, then subtract it from the $20 paid.	3
27	Slices eaten = 3 + 2 = 5, so 5/8 of the pizza is eaten. Fraction left = 8/8 − 5/8 = 3/8. — Marking guide: M1 for 3 + 2 = 5 slices eaten (5/8), M1 for 8/8 − 5/8, A1 for the final answer 3/8 | Hint: Work out how many slices were eaten altogether first, then subtract from the whole pizza. | Explain: 5 of the 8 slices were eaten, so the fraction left is the remaining 3 slices out of 8.	3
28	9:15 → 10:00 is 45 min. 10:00 → 12:00 is 2 h. 12:00 → 12:05 is 5 min. Total = 45 min + 2 h + 5 min = 2 h 50 min. — Marking guide: M1 for counting on to the next hour (45 min), M1 for the hours in between (2 h) plus the remaining minutes (5 min), A1 for the final answer 2 h 50 min | Hint: Count on to the next o'clock first, then add the full hours, then add the leftover minutes. | Explain: Count on to 10:00, add the 2 full hours to 12:00, then add the last 5 minutes.	3

29a	Perimeter = 2 × (12 + 8) = 2 × 20 = 40 m. — Marking guide: M1 for 12 + 8 = 20, A1 for the perimeter 2 × 20 = 40 m (correct unit) | Hint: Perimeter is all four sides of the garden added together, in m. | Explain: The flower bed is inside the garden, so it does not change the garden's outer perimeter.	2
29b	Garden area = 12 × 8 = 96 m². Flower bed area = 4 × 4 = 16 m². Walkable area = 96 − 16 = 80 m². — Marking guide: M1 for 12 × 8 = 96, M1 for 4 × 4 = 16, A1 for 96 − 16 = 80 m² (correct unit) | Hint: Find the whole garden's area first, then subtract the flower bed's area. | Explain: Subtract the flower bed's area from the whole garden's area to find the walkable area.	2
