Primary 3 · Mathematics

Mathematics · Set 5 — Answer Key

50 marks · 1 h 30 min

For parents. Give this to the pupil only after the paper is finished. Written answers: accept any answer with the same meaning, in a complete sentence with correct tense.

Section A: Multiple-Choice Questions (10 marks)

No.	Answer	Marks
1	(4) 7 031	1
2	(2) 48	1
3	(3) 8	1
4	(1) 6/10	1
5	(1) Angle 1	1
6	(1) $1.00	1
7	(4) 12:35	1
8	(3) mℓ	1
9	(1) Line pair 1	1
10	(3) 8	1

Section B: Short Answer (27 marks)

No.	Answer	Marks
11	5237 | Explain: 8 005 = 7 thousands, 9 hundreds, 9 tens, 15 ones, so 8 005 − 2 768 = 5 237.	2
12	7.45 $ | Explain: $12.00 = 11 dollars and 100 cents, so $12.00 − $4.55 = $7.45.	2
13	45 min | Explain: 10:35 → 11:00 is 25 min, 11:00 → 11:20 is 20 min, so 45 min.	2
14	25 min | Explain: 15:45 → 16:00 is 15 min, 16:00 → 16:10 is 10 min, so 25 min.	2
15	11:35 | Explain: 9:20 → 11:20 is 2 h, then 11:20 → 11:35 is 15 min more, so 11:35.	2

16	54 books	2
17	8 marbles	2
18	1.35 $	2
19	4050 m	1
20	5/7	1
21	50 cm	2
22	70 cm²	2
23	4	1
24	3	2
25	1250 mℓ	2

Section C: Long Answer (13 marks)

No.	Answer	Marks
26	10:10 a.m. → 11:00 a.m. is 50 min. 11:00 a.m. → 1:00 p.m. is 2 h. 1:00 p.m. → 1:25 p.m. is 25 min. Total = 50 min + 2 h + 25 min = 3 h 15 min. — Marking guide: M1 for counting on to the next hour (50 min), M1 for the hours in between (2 h) plus the remaining minutes (25 min), A1 for the final answer 3 h 15 min | Hint: Count on to the next o'clock first, then add the full hours, then add the leftover minutes. | Explain: Count on to 11:00, add the 2 full hours to 1:00 p.m., then add the last 25 minutes.	3
27a	Perimeter = 2 × (24 + 11) = 2 × 35 = 70 m. — Marking guide: M1 for 24 + 11 = 35, A1 for the perimeter 2 × 35 = 70 m (correct unit) | Hint: Perimeter is all four sides added together, in m. | Explain: Perimeter is the total distance around the car park: 2 × (length + width).	2
27b	Area = 24 × 11 = 264 m². — Marking guide: M1 for 24 × 11, A1 for the area 264 m² (correct unit) | Hint: Area is length × width, in m². | Explain: Area covers the whole surface: length × width, in square metres.	2
28	Fish = 3 × $9 = $27. Prawns = 2 × $14 = $28. Total cost = $27 + $28 = $55. Change = $60 − $55 = $5. — Marking guide: M1 for the fish and prawn costs ($27 and $28), M1 for the total cost $55, A1 for the final answer $5 | Hint: Work out the cost of the fish and the prawns separately, then add them before subtracting from $60. | Explain: Add the cost of the fish and prawns to get the total, then subtract from the $60 paid.	3

29	Perimeter = 2 × (40 + 15) = 110 m. Fencing needed = 110 − 4 = 106 m (leaving a gap for the gate). Cost = 106 × $7 = $742. — Marking guide: M1 for the perimeter 2 × (40 + 15) = 110, M1 for 110 − 4 = 106 m, M1 for 106 × 7, A1 for the final answer $742 | Hint: Find the perimeter first, then subtract the gate gap, then multiply by the cost per metre. | Explain: The gate doesn't need fencing, so subtract its width from the perimeter before multiplying by the cost per metre.	3
