Primary 3 · Mathematics

Mathematics · Set 2 — Answer Key

50 marks · 1 h 30 min · Focus practice

For parents. Give this to the pupil only after the paper is finished. Written answers: accept any answer with the same meaning, in a complete sentence with correct tense.

Section A: Multiple-Choice Questions (10 marks)

No.	Answer	Marks
1	(2) 56	1
2	(3) 9	1
3	(1) 2 633	1
4	(2) 11:15	1
5	(2) Perimeter	1
6	(2) cm²	1
7	(1) 6/8	1
8	(2) 90°	1
9	(1) $1.00	1
10	(3) 4	1

Section B: Short Answer (27 marks)

No.	Answer	Marks
11	54	1
12	64	1
13	6	1
14	8 groups	2
15	56 buns	2
16	9	2
17	6246	2
18	6.35 $	2

19	45 min	2
20	08:40	2
21	34 cm	2
22	40 cm²	2
23	2/3	2
24	4	2
25	5	2

Section C: Long Answer (13 marks)

No.	Answer	Marks
26	8:45 → 9:00 is 15 min. 9:00 → 12:00 is 3 h. 12:00 → 12:20 is 20 min. Total = 15 min + 3 h + 20 min = 3 h 35 min. — Marking guide: M1 for counting on to the next hour (15 min), M1 for the hours in between (3 h) plus the remaining minutes (20 min), A1 for the final answer 3 h 35 min | Hint: Count on to the next o'clock first, then add the full hours, then add the leftover minutes.	3
27	Perimeter = 2 × (15 + 9) = 2 × 24 = 48 m. Area = 15 × 9 = 135 m². — Marking guide: M1 for 15 + 9 = 24, M1 for 2 × 24 = 48 m (perimeter, correct unit), A1 for the area 15 × 9 = 135 m² (correct unit) | Hint: Perimeter = all the sides added together, in m. Area = length × width, in m².	3
28	Cost = 6 × $0.75 = $4.50. Change = $5.00 − $4.50 = $0.50. — Marking guide: M1 for 6 × $0.75 = $4.50, M1 for $5.00 − $4.50, A1 for the final answer $0.50 | Hint: Work out the total cost first, then subtract it from $5.	3
29	Perimeter = 2 × (25 + 10) = 70 m. Fencing needed = 70 − 2 = 68 m (leaving a gap for the gate). Cost = 68 × $8 = $544. — Marking guide: M1 for the perimeter 2 × (25 + 10) = 70, M1 for 70 − 2 = 68 m, M1 for 68 × 8, A1 for the final answer $544 | Hint: Find the perimeter first, then subtract the gate gap, then multiply by the cost per metre.	4
